Why you should have your property protected against loss by fire. First: An Insurance Policy costs little compared with the protection it affords. Second: Fires break out in a night in the mest unlooked for places. Third: It is the best investment of a small amount of money you can possibly have, and will add greatly to your peace of mind and comfort to know that you are sufficiently protected in this important matter.

MYSTIC FIVE RETAINS

Defeated Jewett City Basketball Team in Fast Game-Score 15 to 13-J. McKone Starred-Taftville-Jewett City Series Open Next Week.

The Mystic basketball five retained their prestige Thursday evening by defeating Jewett City on the Jewett City floor by the score of 15 to 13.

The game was the fastest game of the season at Jewett City and full of exciting moments. This was the second time that the quintitle from Mystic had defeated the berough boys.

tic had defeated the berough boys.

J. McKone captured the honors in basket shooting for Mystic, while Jewett City divided honors. W. Benjamin, who has been on the sick list, was back in the game and proved to be an emergency man, shooting 10 out of the 11 fouls called. The sickness of C. Benjamin was a loss to Jewett City. Mystic has one of the best fives that that place has seen for several years and is able to make the best quintettes in the state step lively to compete with them.

Next Thursday evening Jewett City opens a series with Taftville and fans in the borough are expecting to see a crack series. The lineup:

MARKET WAS UNSETTLED. Due to Statement Issued by Chairman Gary of U. S. Steel Corporation.

New York, Jan. 6 .- The one engross-New York, Jan. 6.—The one engrossing and overshadowing feature of today's highly irregular and at times unsettled market was the statement issued by Chairman Gary of the United States Steel corporation bearing upon present and future aspects of that important industry. As a matter of fact, the statement went far beyond its probable intent, and many interpretations and inferences, mostly unfavorable, were drawn therefrom.

In trade circles and among the substantial banking interests, however, Judge Gary's utterances were accepted

stantial banking interests, however, Judge Gary's utterances were accepted as a conservative and opportune exposition of conditions. For some time there has been a disposition to check wild and reckless operations in many lines of trade and industry no less than in the stock market itself, and the belief prevailed that the admonitions contained in the Gary statement were likely to bear fruit.

Stocks were under restraint from the outset and naturally the course of United States Steel was observed with especial interest. Steel common open-

especial interest. Steel common open-ed at a slight advance over the pre-ceding day's final quotation of 86 7-8, but soon fell off to 86 1-2, from which but soon fell off to 86 1-2, from which it recovered to 87 1-8. After that it lost ground more or less steadily, yielding to 86 just before the close, and making only a feeble rally. Other leading issues were at lowest prices in the final hour, all the activity of that period converging about the more vulnerable stocks.

For a time coppers withstood the selling movement better than any

selling movement better than any other group, their strength being at-tributed to yet another high quotation tributed to yet another high quotation for the refined metal, but these stocks, as well as all classes of specialties, felt the impact of the increased selling. A few of the high priced industrials suffered severely in the course of the day's feverish trading. General Motors fell 45 to 440, Bethlehem Steel 24 1-2; to 425, and International Agricultural Chemical preferred 6 to 64.

Rails were under constant pressure.

cultural Chemical preferred 6 to 64.

Ralis were under constant pressure, although losses in that division were barely more than one to two points. Marked heaviness was shown by New York Central, New Haven, Canadian Pacific and Eric. Total sales of stocks amounted to 810,000 shares.

Exchange on Germany and Austria established new low records, marks declining to 73 1-4, but demand sterling was decidedly strong, rising to 4.77 3-4 after the market's close, thereby reducing the British discount to less than 2 per cent.

How can you expect to beat the Harvard fcotball system if this is the way they do it? Says Reggie Brown: "We used plays on Yale this year that we have had under cover for four or five years. We have had them ready, but never had to work them out, because our defense always kept up to the other fellows' offense. This year, with some green material, we feared that our defense might not hold them and we uncorked some trick plays we already Fad."

"In the future," says President Lannin of the Red Sox, "baseball owners will be able to announce what players have not been signed, something which could not be done in recent years because of the Feds being in the field. Our condition is very satisfactory. We will not have trouble with any player we care about."
